Volume 4 Indexes

Subject Index

Acoustic behavior
  alarm calls, 117
  in katydids, 364–368
  mating cues, 106–113
  in rhesus macaques, 194–205, 206–212
African lions, predation by, 90–97
Age, role in copying behavior, 289–292
Agelaius phoeniceus. See Red-winged blackbirds
Aggression
  in burying beetles, 332
  in katydids, 364–368
  and mating success, 114–119
  relation to resources, 293–296, 345–349
  in response to call suppression, 210, 212
  toward ant queens, 279–280
Alpine marmots, effect of ectoparasites on fitness, 36–39
Altruism, role of kinship in, 7, 128–137
American goldfinches, female preference, 138–143
Anthus pratensis. See Meadow pipits
Antipredator behavior, 18, 282
Ants, queen adoption, 276–281
Apis mellifera. See Honeybees
Apus apus. See Swifts
Aquarius remigis. See Waterstriders
Avoidance, 169–170

Behavioral polymorphism, 282–288
Blackbirds. *See also* Red-winged blackbirds
  mate and site fidelity, 271–275
Black vultures, monogamy in, 29–35
Blue jays, foraging in, 350–363
Body size, relation to acoustic cues, 108
Bonasa bonasia. See Hazel grouse
Breeding dispersal, 144–150, 271–275
Brood parasitism
  determinants of success, 120–127
  intraspecific, 66
Burying beetles, determinants of sociality, 332–339

Calling. *See* Acoustic behavior
Capybaras, mating success, 114–119
Carduelis tristis. See American goldfinches
Cerci. *See* Forceps
Chiroxiphia linearis. See Long-tailed manakins
Cichlasoma nigrofasciatum. See Convict cichlids
Colony fission, 239, 276
Competition
  female-female, 184–186
  in meadow voles, 83
Concorde fallacy, 78, 81
Contest theory, 345
Convict cichlids
  contests among, 345–349
  resource defense, 293–296
Cooperative breeding, 332
Copulation behavior, in corn bunting, 310–317
Copying behavior, effect on mate choice, 191–193, 289–292
Coragyps atratus. See Black vultures
Corn buntings, reproductive success, 310–317
Cost-benefit analysis, of foraging behavior, 246–253
Crab spiders
  patch choice, 61–65
  silk pheromones, 99–105
Cuckoos, brood parasitism by, 120
Cuculus canorus. See Cuckoos
Cyanocitta cristata. See Blue jays

Dama dama. See Fallow deer
Demography, comparative, 297–309
Dermaptera, sexual selection in, 40–48
Diaea socialis. See Crab spiders
Diet
  of African lions, 90–97
  optimal model, 24–26
Dimensional analysis, 172–183
Divorce, 188, 273–274
DNA fingerprinting, 29–35, 49–60, 310–317
Dominance hierarchies, 114
  relation to body mass, 232–238

Eastern gray squirrels, alternative reproductive tactics, 165–171
Ectoparasites, effect on fitness, 36–39
Elasticity, 297
Energy costs, effect on foraging, 246–253
Energy reserves, in dominance-structured flocks, 232–238
Esox lucius. See Northern pike
Estrus, behavior during, 1
European nuthatches, long-term hoarding by, 369–373
Evolutionarily stable strategy, assumptions of, 67
Evolutionary games, 282–288
Extrapair copulations
  in corn buntings, 310
  effect of parental investment on, 66
Extrapair fertilizations
  in black vultures, 29–35
  in red-winged blackbirds, 49–60

Fallow deer, mate choice, 191–193
Fathead minnows, alarm pheromones in, 260–265
Female choice. *See also* Mate choice
in earwigs, 40
functional models of, 138
in greater prairie chickens, 266–270
in katydids, 106–113
Female-female competition, 184–186
Fertilization rates, estimating, 159
Fisherian model, 138, 254
Fitness, 340
effects of divorce on, 271–275
effect of ectoparasites on, 36–39
effect of hoarding on, 369
inclusive, 128
Food access, 232–238
Food allocation, 213–223
Foraging
area-restricted, 318–324
behavior, 16–18, 19, 246–253
in crab spiders, 61–65
in dominance-structured flocks, 232–238
models, 350–363
optimal, 90–97, 247
by parasitoids, 22–28
in rhesus macaques, 194–205
risk-sensitive, 286–287
Forceps
function, 40–41
sexual dimorphism, 40–48
Formicidae, queen adoption, 276–281

Gallus gallus. See Red jungle fowl
Game theory, 165
Geomys bursarius. See Pocket gophers
Gerridae, reproduction costs, 224–231
Greater prairie chickens, nest-to-lek distances, 266–270
Guppies, role of age in mate choice, 289–292

Hamilton's rule, 7, 128
Hazel grouse, social behavior, 14–21
Hoarding, long-term, 369–373
Honeybees
natural history, 240
sex allocation, 239–245
Host discrimination, 22–28
Hot-spot hypothesis, 266–270
Hunger, effect on acoustic behavior, 202
Hydrochaeris hydrochaeris. See Capybaras
Hymenoptera
alternative reproductive tactics, 325–331
superparasitism, 22–28

Interference competition, 293–296
Intersexual divergence, 297

Jadera haematoloma. See Soapberry bugs

Katydids
agonistic communication, 364–368
female mate preference, 106–113
Kin recognition, in wasps, 11–12
Kinship. *See also* Relatedness
relation to queen number, 7–13
role in altruism, 128–137

Lek mating
evolution of, 1–6
in fallow deer, 191
insect tactics, 325–331
Leks, relation to nest location, 266–270
Leptopilina heterotoma, superparasitism by, 22–28
Leptothorax curvispinosus. See Ants
Life-history theory, 213, 297
Long-tailed manakins, sexual selection, 297–309

Macaca mulatta. See Rhesus macaques
Marginal value theorem, 174–177, 350
assumptions of, 67
Marmota marmota. See Alpine marmots
Mate carrying, costs of, 224–231
Mate choice (*see also* Female choice) 1–6, 138–143
acoustic cues for, 106–113
analysis of, 340
copying, 191–193, 289–292
role in ornament heritability, 254–259
Mate fidelity. *See also* Divorce
in blackbirds, 271–275
Mate guarding, 156–164
Mating strategies, effect of nest predation on, 340–344
Mating success. *See also* Reproductive success
in eastern gray squirrels, 165–171
and male dominance, 114–119
Mating systems
evolution of, 266
of meadow voles, 83–89
role of females, 187–189
Meadow pipits, rejection of parasitic eggs by, 120–127
Meadow voles, mating systems, 83–89
Mechanoreception, 99
Microtus pennsylvanicus. See Meadow voles
Miliaria calandra. See Corn buntings
Misumena vatia. See Crab spiders
Monogamy, 29–35, 188
Mortality
effect on foraging behavior, 246–253
relation to ectoparasites in infants, 37, 39

Neotropical wasps, relatedness and queen number, 7–13
Nest desertion, 120, 125
Nest mate discrimination, 332
Nest predation, 340–344
Nicrophorus. See Burying beetles
Northern pike, predation by, 260–265
Nutritional status, relation to hoarding, 369–373

Oligogyny, cyclical, 7–8, 10–12
Optimization theory, 246
Ornaments
female preference for, 138–143
heritability, 254–259

Panthera leo. See African lions
Paper wasps, territoriality in, 325–331
Parasites
effect on fitness, 36–39
effect on ornaments, 254
Parasitoids, superparasitism by, 22–28
Parentage
in black vultures, 29–35
definition, 68
effect on parental behavior, 66–77

Parental behavior and care, 287, 332
definition, 68
evolution of, 66–77
among red squirrels, 151
among red-winged blackbirds, 78–82
Parental effort, definition, 68
Parental investment, by swifts, 213–223
Parus montanus. *See* Willow tits
Patch choice, in crab spiders, 61–65
Patch residence time, predicting, 350–363
Paternity, 49–60, 83–89
Pheromones
alarm, 260–265
silk, 99–105
Philopatry, juvenile, 151
Pimephales promelas. *See* Fathead minnows
Pipridae, sexual selection, 297–309
Plant density, effect on foraging, 318–324
Plumage coloration, female preference for, 138–143
Pocket gophers, foraging in, 318–324
Poecilia reticulata. *See* Guppies
Polistes
alternative mating tactics, 325–331
kinship and altruism, 128–137
Polistes canadensis. *See* Paper wasps
Polybia occidentalis. *See* Neotropical wasps
Polydomy, in ants, 276
Polygamy, 188
Polygamy-threshold model, 340
Polygyny
in ants, 276
in birds, 49–60, 78–82, 310–317
effect on nest predation, 340–344
in sciurids, 165
Population size, behavioral responses to variations in, 282–288
Post-breeding dispersal, 151–155
Predation
by African lions, 90–97
nest, 340–344
production of alarm pheromones in response to, 260–265
risks, 228–230, 248–249
Ptilochronology, 369
Punishment, and witholding information, 210, 212

Queen adoption, in ants, 276–281
Queen number, in wasps, 7–13

Red jungle fowl, heritability of ornaments, 254–259
Red squirrels
post-breeding dispersal, 151–155
territorial bequeathal, 144–150
Red-winged blackbirds
paternal provisioning, 78–82
polygyny, 49–60
Relatedness. *See also* Kinship
determining, 8
effect on parental behavior, 66
Reproduction
costs of, 213–223
trade-offs, 282
Reproductive dominance, among queens, 10
Reproductive success. *See also* Mating success
of corn buntings, 310–317
determinants in parasitoids, 22–28
of red-winged blackbirds, 49–60
Reproductive tactics
alternative, 165–171, 325–331
Resource
distribution
effect on defense, 293–296
effect on foraging, 318–324
relation to leks, 1
monopolization, 293–296
value, 345–349
Retrieval, of stored food, 369–373
Rhesus macaques, food-associated calls, 194–205, 206–212
Rhopalidae, mate guarding in, 156–164

Schreckstoff. *See* Pheromones, alarm
Sciurus carolinensis. *See* Eastern gray squirrels
Scudderia curvicauda. *See* Katydids
Sensitivity analysis, 297
Sensory drive hypothesis, of mate choice, 138
Sequential assessment, 345–349
Sex allocation, in honeybees, 239–245
Sex ratios, 158
of corn buntings, 310
in honeybees, 239–245
Sexual behavior, of females, 184–189
Sexual selection, 40–48, 49–60
of ornaments, 254–259
role of demographic divergence, 297–309
Shoaling, as antipredator behavior, 262–263
Site fidelity, 271–275
Sitta europaea. *See* European nuthatches
Soapberry bugs, male mating tactics, 156–164
Social behavior
in burying beetles, 332–339
in crab spiders, 99–105
in earwigs, 40–48
in hazel grouse, 14–21
relation to ectoparasite load, 36
Socioecology, of rhesus macaque calls, 194–205
Spermatophore, relation to male size, 106, 110
Sperm competition, 158
Static optimization model, 67
Stochastic modeling, 282–288
Superparasitism, 22–28
Survival, role of alarm pheromones, 260–265
Swifts, parental investment by, 213–223

Tamiasciurus hudsonicus. *See* Red squirrels
Territorial bequeathal, 144–150
Territoriality, 1–6
effect of resource distribution on, 293–296
modeling, 177–180
overlap, 14, 16
Territory quality, effect on reproductive success, 272–273
Tettigoniidae
acoustic behavior, 364–368
female mate preference, 106–113
Toothed earwigs, sexual dimorphism in, 40–48
Turdus merula. *See* Blackbirds
Tympanuchus cupido. *See* Greater prairie chickens

Vigilance, mutual, 18–20
Vostox apicedentatus. *See* Toothed earwigs

Wasps. *See also* Paper wasps; Neotropical wasps; *Polistes*

altruism, 128–137
colony cycle, 129
Waterstriders, reproduction costs, 224–231
Webs, role in spider sociality, 99
Willow tits, foraging strategies of, 232–238
Witholding information, in rhesus macaques, 206–212
